Brilliant, please keep me posted. The days are dry and very hot, and there are smokers and tons of cars up here all the time. We are gravely concerned.

Thank you,
Heather

Got it.

We need to meet with City Attorney on this first. We will set up and follow up.

Thank you for your response.

I have spoken already with Dale Williams of the LA Bureau of Engineering. He does NOT understand our street, he was arguing with me, and trying to convince me that I do not live on a dead end! He also told me that a street vacation would take 2-4 YEARS and frankly we do not have that kind of time.

This is why I am requesting the CM to issue an **immediate temporary vacation with no pedestrian access**, to get us through the rest of the summer through Labor Day. This is an urgent matter, especially with all of these wildfires.

A temporary vacation does NOT mean privatizing or vacating. This is an emergency and we have more than enough photo documentation to justify the CM's actions. We need your help, the CM can make this happen. This is absolutely in his jurisdiction.

Once the temp vacation is in place, we can start working on the full vacation. But we need relief NOW and that is why we are asking for you to issue a temp closure.

"Dirt" Mulholland (#6145 through #6101) IS NOT A VIEWING SITE FOR THE SIGN. It is NOT AN ENTRANCE TO GRIFFITH PARK.

Thank you,
Heather

Heather,

We are in meetings or conference calls every day on this issue to gather ideas, support and funding for enhanced enforcement. Specifically, we have brought in the two Deputy Mayors in charge of these services.

The meeting last week was postponed due to the availability of both Chief Grimalla and Chief Vidovich both of whom are essential.

Catherine will follow with an update.

In addition, we should connect with the folks who know the process of street vacation. It's not my understanding that it's a process that the council office controls but begins with the residents.

Thanks,

Sarah
